Grafana Mimir or Loki rule groups and namespaces

A namespace contains one or more groups. The rules within a group are run sequentially at a regular interval. The default interval is one (1) minute. You can rename Grafana Mimir or Loki rule namespaces and groups, and edit group evaluation intervals.

Group list

{{< figure src="/static/img/docs/alerting/unified/rule-list-edit-mimir-loki-icon-8-2.png" max-width="550px" caption="Alert details" >}}

Rename a namespace

To rename a namespace:

1. In the Grafana menu, click the **Alerting** (bell) icon to open the Alerting page listing existing alerts.
2. Find a Grafana Mimir or Loki managed rule with the group that belongs to the namespace you want to edit.
3. Click the **Edit** (pen) icon.
4. Enter a new name in the **Namespace** field, then click **Save changes**.

A new namespace is created and all groups are copied into this namespace from the old one. The old namespace is deleted.

Rename rule group or change the rule group evaluation interval

The rules within a group are run sequentially at a regular interval, the default interval is one (1) minute. You can modify this interval using the following instructions.

1. n the Grafana menu, click the **Alerting** (bell) icon to open the Alerting page listing existing alerts.
2. Find a Grafana Mimir or Loki managed rule with the group you want to edit.
3. Click **Edit** (pen) icon.
4. Modify the **Rule group** and **Rule group evaluation interval** information as necessary.
5. Click **Save changes**.

When you rename the group, a new group with all the rules from the old group is created. The old group is deleted.
