Generic Colouriser plugin

This plugin adds wrappers for commands supported by Generic Colouriser:

To use it, add `grc` to the plugins array in your zshrc file:

```
plugins=(... grc)
```

Commands

The plugin sources the bundled alias generator from the installation, available at `/etc/grc.zsh`. The complete list of wrapped commands may vary depending on the installed version of `grc`, look at the file mentioned above (`/etc/grc.zsh`) to see which commands are wrapped.
