Introduction

[vue-element-admin](#) is a production-ready front-end solution for admin interfaces. It is based on [vue](#) and uses the UI Toolkit [element-ui](#).

[vue-element-admin](#) is based on the newest development stack of vue and it has a built-in i18n solution, typical templates for enterprise applications, and lots of awesome features. It helps you build large and complex Single-Page Applications. I believe whatever your needs are, this project will help you.

- Base template recommends using: [vue-admin-template](#)

- Desktop: [electron-vue-admin](#)

- Typescript: [vue-typescript-admin-template](#) (Credits: [@Armour](#))

- [awesome-project](#)

After the `v4.1.0+` version, the default master branch will not support i18n. Please use [i18n Branch](#), it will keep up with the master update

The current version is `v4.0+` build on `vue-cli` . If you find a problem, please put [issue](#). If you want to use the old version , you can switch branch to [tag/3.11.0](#), it does not rely on `vue-cli`
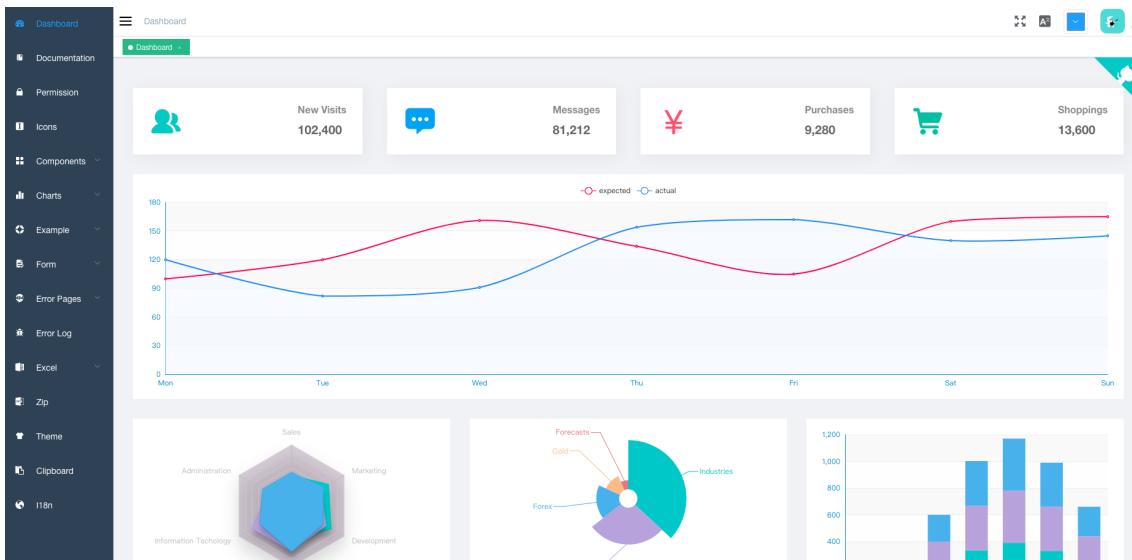

This project does not support low version browsers (e.g. IE). Please add polyfill by yourself.

Preparation

You need to install [node](#) and [git](#) locally. The project is based on [ES2015+,](#) [vue,](#) [vuex,](#) [vue-router,](#) [vue-cli](#) , [axios](#) and [element-ui,](#) all request data is simulated using [Mock.js.](#) Understanding and learning this knowledge in advance will greatly help the use of this project.

Flatlogic

Admin Dashboard Templates made with Vue, React and Angular.

Features

```
- Login / Logout

- Permission Authentication
    - Page permission
    - Directive permission
    - Permission configuration page
    - Two-step login

- Multi-environment build
    - Develop (dev)
    - sit
    - Stage Test (stage)
    - Production (prod)

- Global Features
    - I18n
    - Multiple dynamic themes
    - Dynamic sidebar (supports multi-level routing)
    - Dynamic breadcrumb
```

```
  - Tags-view (Tab page Support right-click operation)
  - Svg Sprite
  - Mock data
  - Screenfull
  - Responsive Sidebar

- Editor
  - Rich Text Editor
  - Markdown Editor
  - JSON Editor

- Excel
  - Export Excel
  - Upload Excel
  - Visualization Excel
  - Export zip

- Table
  - Dynamic Table
  - Drag And Drop Table
  - Inline Edit Table

- Error Page
  - 401
  - 404

- Components
  - Avatar Upload
  - Back To Top
  - Drag Dialog
  - Drag Select
  - Drag Kanban
  - Drag List
  - SplitPane
  - Dropzone
  - Sticky
  - CountTo

- Advanced Example
- Error Log
- Dashboard
- Guide Page
- ECharts
- Clipboard
- Markdown to html
```

Getting started

```
# clone the project
git clone https://github.com/PanJiaChen/vue-element-admin.git
```

```
# enter the project directory
cd vue-element-admin

# install dependency
npm install

# develop
npm run dev
```

This will automatically open http://localhost:9527

Build

```
# build for test environment
npm run build:stage

# build for production environment
npm run build:prod
```

Advanced

```
# preview the release environment effect
npm run preview

# preview the release environment effect + static resource analysis
npm run preview -- --report

# code format check
npm run lint

# code format check and auto fix
npm run lint -- --fix
```

Refer to Documentation for more information

Changelog

Detailed changes for each release are documented in the release notes.
